

Dear parent/guardian,

We're really pleased to hear that your child is interested in joining our Code Club.

What is Code Club?

Code Club is a nationwide network of after-school coding clubs for children. You can find out more at codeclub.org.uk

How does it work?

Code Club provide step-by-step activity sheets for children to follow so that they can create games, animations, and websites, learning the key concepts of coding at the same time.

What do the children learn?

Code Club have resources to teach children Scratch, HTML/CSS, and Python. Learning to code is more than just a vocational skill: it changes the way children analyse and solve problems, and encourages creative thinking and collaboration.
